

Missions Discipleship for Young Women

From 18–35 years of age, young women experience multiple transitions. It frequently seems that change is the only constant during these years.

Missions discipleship for young women is particularly important for developing a missional mindset . . . one that leads to deeper devotion as they live out their relationship with Christ through missions involvement, Bible study, and prayer.

myMISSION is WMU's missions discipleship group for young women. myMISSION's purpose is to teach young women to follow Jesus by serving others and sharing the gospel in word and deed. As they build community, these women explore their faith together and participate in hands-on missions projects.
